CAROLINA

# The Honors Carolina Approach to Global Engagement

■

Honors London  
@ Winston House

“Honors London took me to a city whose vastness and diversity were overwhelming in the best possible way, and I returned home a more mature, independent, and confident person.”

**Levent Calikoglu '16**

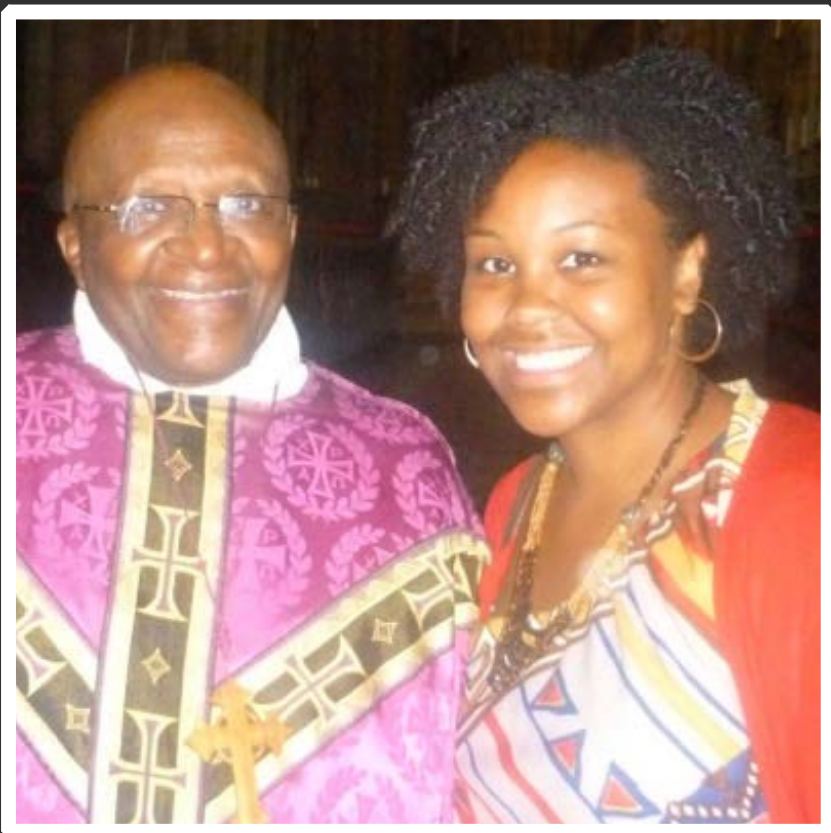

Intern, Royal National Throat,  
Nose, and Ear Hospital

# Honors Cape Town

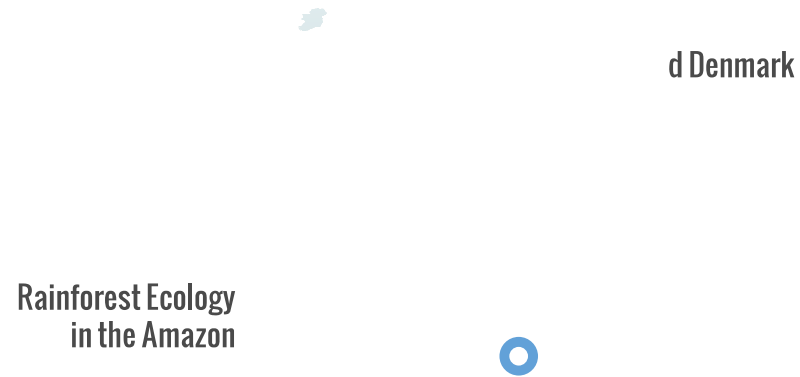

“The best part of the Honors Cape Town program was my internship with the Desmond Tutu HIV Foundation. My experience there solidified my interest in public health. I'm now pursuing a Master of Public Health degree, and my internship in Cape Town is what I talk about the most in job interviews!”

**Leandra Lacy '13**

Intern, Desmond Tutu HIV Foundation

# Burch Field Research Seminars: Spanning the Globe

or,  
Burch Rwanda

“My work as a lawyer and professor sometimes brought me into the realm of human rights and international criminal law, but they were not my focus. Now, as a result of teaching the Burch seminar in Rwanda, I have developed a much stronger scholarly interest in human rights, and more generally in the role that law plays in post-conflict societies. When I next teach my international law seminar in Chapel Hill, those topics will have a much more prominent place.”
